

Technical Data Sheet SAS202 RTV Silicone Sealant

PRODUCT DESCRIPTION:

SAS202 is a one-component, acid-curing silicone sealant that cures at room temperature under the action of atmospheric moisture to give a flexible silicone rubber.

SAS202 is especially designed for waterproof seals on a variety of non-porous substrates such as glass, ceramic tiles, vitrified surfaces, fibreglass and anodized aluminium.

SAS202 contains fungicide additives to protect the silicone against mould infestation.

MAIN BENEFITS:

- Fast curing.
- Excellent adhesion to a variety of non-porous substrates.
- Permanently flexible.
- Resistant to ultra-violet radiation, extreme temperature and ageing.
- Mildew resistant. Suitable for sanitary applications.

PRODUCT CERTIFICATIONS:

SAS202 meets the following specifications:

- CE marking: EN 15651-2: G-CC
EN 15651-3: S, class S1

ENVIRONMENTAL REGULATIONS:

- French VOC-emission class C.

PACKAGING INFORMATION:

This product is available in 300 ml cartridges.

STORAGE:

The shelf life is 12 months in its unopened original packaging, in dry conditions and protected from direct sunlight at temperatures between +5°C and +25°C.
