

MANUTEC AIRLINE LUBRICANT K010

Product Code: WIN004 | Revision: 20230511

MPG airline lubricant & antifreeze.

Available Pack Sizes

Applications

Monopropylene glycol based lubricant/antifreeze designed to help prevent the freezing of pneumatic equipment. Formulated with corrosion inhibitors and emulsifying agents to absorb water and prevent corrosion in the pneumatic/airline system.

Recommended by Aztec Oils as suitable for the following applications

Use in pneumatic equipment to help prevent the formation of ice.

Benefits

- Absorbs water.
- Superb corrosion protection.
- Prevents freezing.
- Provides excellent lubrication.

Typical Test Data

Appearance	Clear green/yellow liquid
Density @ 15°C (kg/m ³)	Ca. 1
Kinematic Viscosity @ 40°C (mm/s ²)	Ca. 30
pH	>7

The typical test data provided is taken from average values, there will be some variability in production and therefore do not constitute a specification.

Recommendations

- A Safety Data Sheet is available for consultation at www.aztecoils.co.uk.
- Packaging should not be left exposed to elements and drums should be laid horizontally to prevent contamination.
- This product should not be stored at temperatures exceeding 30°C & should be kept out of direct sunlight.
- When disposing of the product after use, please protect the environment and comply with local regulations.

In line with our policy of continued improvement, Aztec Oils reserve the right to change specifications and availability without prior notice. This product, used according to our recommendations and for its designed application, does not represent any particular risk. The information present in this technical data sheet is indicative of the product and is given in good faith, but should not form part of any specification.
